Stud Fee:

\$_____ or pick puppy with no breeding restrictions or other restrictions. First Harmony Farms will take second pick puppy if the Dam Owner plans to keep pick puppy for themselves. First Harmony Farms may use FHF as the beginning of the puppy's name. Stud fee is required paid before first breeding takes place, unless a puppy is being considered. Registration papers will be signed after the pick puppy is delivered or stud fee is paid in full.

Stud owner agrees to:

1. Take good care of bitch while in our care.
2. Sign litter registrations once litter is born and payment is received.
3. Provide a repeat stud service to the same dog if only one or no live puppies at birth result from the first breeding. There will only be one repeat breeding. If this stud is no longer available for breeding, AI (if available) or a different stud can be agreed upon.

Bitch owner agrees to:

1. Have a negative brucellosis test on the female from the 4 months before breeding.
2. Pay stud fees before any breeding takes place unless a puppy is being considered.
3. Pay an additional \$100 per trip to the airport needed.

4. Pay for any veterinary services needed while the bitch is in our care. This may include health certificates, progesterone testing, brucellosis testing, vaginal swabs, AI, or any other vet care needed. The owner will be informed of all charges needed if possible before they are performed.
5. Send bitch in season and healthy enough to be bred.
6. Have a puppy contract that requires all puppies are returned to the breeder if owner chooses not to keep puppy. No puppies produced by this mating should ever end up in foster care or a shelter.
7. Contract must require all puppies have appropriate health testing (hips, elbows, eyes) before any breeding takes place. Only the stud and bitch owner are allowed breeding rights from this litter.
8. Attach all registration papers and health clearances
